1. Mr. [REDACTED] requested that this Office review referent dispatch and provide an opinion regarding action which should be taken.

2. We do not believe that travel at Government expense for this dependent would be appropriate under the stated circumstances, and we would not concur in a request for such travel or a waiver of time limitations if such were formally submitted. We believe the intent of the [REDACTED] laws upon which they are based is clearly that of permitting authorized dependents to accompany their sponsors abroad. To us, the word "accompany" connotes considerably more than a short visit. Rather, it indicates that the dependent will reside with, and be a member of, the sponsor's household for a substantial period of time.

3. It is our recommendation that the Field be advised that the travel of the daughter at the requested time and for the requested purpose is not authorized. If at a later date the employee desires to have his daughter join him and remain with him for a substantial period (for example, the summer months of 1965), then we would certainly recommend a waiver of the time limits to permit such travel.
